bomber crew skin pack 2. bomber crew skin pack 2 and 3

Love it! Its awesome to see some hostorically accurate skins in the game. i love that they added the Birmingham Blitz, a rare and not very known part of WW2 bomber history. This is the kind of useless cosmetic DLC i would not care about usually.
But as it is included in the season pass, and that the said seaon pass is being the cheapest way to get all the other DLC, especially the one that will bring true content to the game, then, why not.
