[Is It Time For A Professional Association](#)

Practice Background

PRACTICE NAME: Eye Physicians Professional Association
LOCATION: Macon, Georgia
SPECIALTY: Ophthalmology
LOCATIONS: 1
PHYSICIANS: 4
CHARTLOGIC USER SINCE: 2014

Eye Physicians Professional Association has been a ChartLogic customer for the past two years, using the Electronic Medical Record (EMR) software for fast track creation. Starting on January 1st, 2016, Eye Physicians reported their Kredo Billing service with ChartLogic Medical Billing Services. In only four months, Eye Physicians started seeing an increase in collections, a decrease in A/R, and ChartLogic was even able to go back through 2015 and resubmit old Kredo charges that were never submitted. With additional consulting and consultation services, Eye Physicians is on track to increase collections in 2016 by 20%.

Case Study: Eye Physicians

Ophthalmology Practice
Increases Collections
and Decreases A/R by
40% without Increasing
Patient Volume

Results

With their experience with Kredo, Eye Physicians turned to Medical Billing Service in January 2016 in order to fix their A/R and increase practice performance. In only four months, the practice has already started to see major results without increasing patient volume.

Increased Collections by \$177,000 in just 4 months

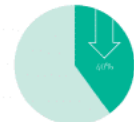

Over the same time period as the previous year, in a traditionally slow season.

Working on the old A/R, combined with new Kredo and efficient programs, helped the practice to increase Q4 2015 collections by \$177K, when compared to Q4 2014.

They were surprised by this change, as they were expecting \$200K-\$400K in January, but received \$260K.

As of January, our A/R is down tremendously. We're able to get payments more quickly and our claims are going faster. ChartLogic even went up on any claims that were tied for any reason."
